ABOUT ME

Dedicated and enthusiastic data analyst with practical experience in Python, SQL, NumPy, Pandas, Excel, Power BI, and file handling. Skilled in data cleaning, transformation, visualization, and reporting, with a strong ability to extract actionable insights from complex datasets. Passionate about problem-solving, structured learning, and applying analytical skills to real-world scenarios.

EDUCATION

Geetanjali college of science and commerce,udaipur

2023 - pursuing

Bachelor of computer application

Class 12

2022-2023

- percentage = 85%

PROJECTS

Job Analysis Dashboard | Power BI Project

september 2025

Tools Used: Power BI, Excel

- Designed an interactive Job Analysis Dashboard to analyze job trends across roles, locations, experience levels, and salary ranges.
 - Cleaned and transformed raw data using Power Query to ensure accuracy and consistency.
 - Created KPI cards for Total Jobs, Average Salary, Top Job Role, and Top Location to give quick business insights.
 - Built dynamic visuals such as bar charts, pie charts, line charts, and filters/slicers for user-driven analysis.
 - Used DAX measures to calculate average salary, job counts, and role-wise distribution.
 - Helped users identify in-demand skills, high-paying roles, and job market trends through visual storytelling.

Coffee Sales Analysis Dashboard | Power BI

November 2025

Tools Used: Power BI, Excel, power query

- Developed an interactive Coffee Sales Analysis Dashboard to track sales performance across products, regions, and time periods.
 - Cleaned and transformed raw sales data using Power Query, handling missing values and standardizing product categories.
 - Created KPI cards to display Total Revenue, Total Orders, Average Order Value, and Top-Selling Coffee Product.
 - Designed dynamic visuals including bar charts, line charts, donut charts, and slicers for month, region, and product type.
 - Enabled trend analysis to identify peak sales periods, best-performing products, and regional demand patterns.
 - Improved business decision-making by providing actionable sales insights through clear data storytelling.

TRAINING AND CERTIFICATIONS

DATAANALYTICSTRAINING – TECNOGLOBE Udaipur

HANDS-ON EXPERIENCE WITH ANALYTICAL TOOLS AND TECHNIQUES EXPOSURE TO REAL-WORLD DATA-DRIVEN PROJECTS

CERTIFICATION IN GRAPHIC DESIGN MSME ORGANISATION

TECH SKILLS

- Programming: Python, SQL (Beginner to Intermediate)
- Data Analytics: Data visualization, statistical analysis, business insights
- Tools & Technologies: Excel, Power BI, Tableau (Basic Exposure)
- Strong analytical thinking and structured approach to problem-solving

SOFT SKILLS

- Teamwork
- Time Management
- Leadership Effective
- Communication
- Quick learner
